

It's been 60 years
(or thereabouts) since
we've heard from him.

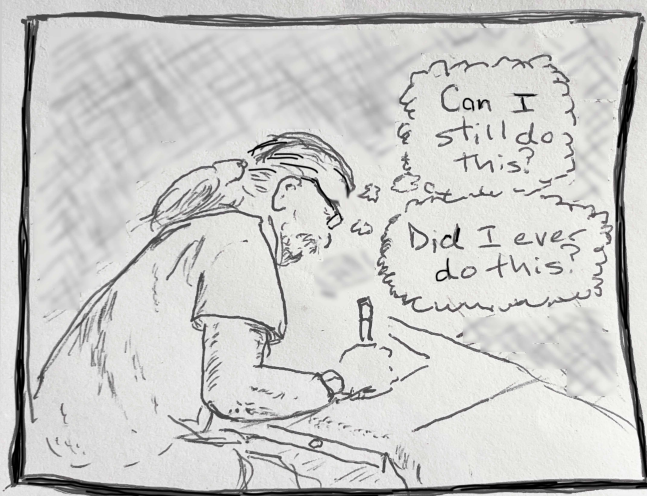

Who you may ask?

Probably the least known
anti-hero of all time.

It's time for

But wait! It's not that easy!

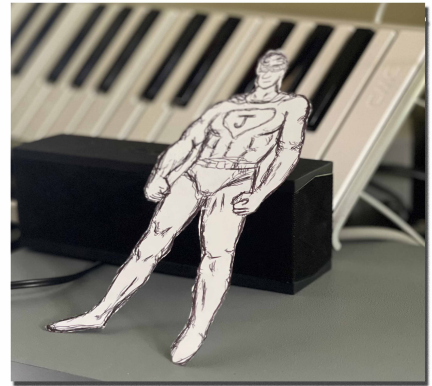

60 years (or thereabouts)? Things can change.
... and booy did they change!!

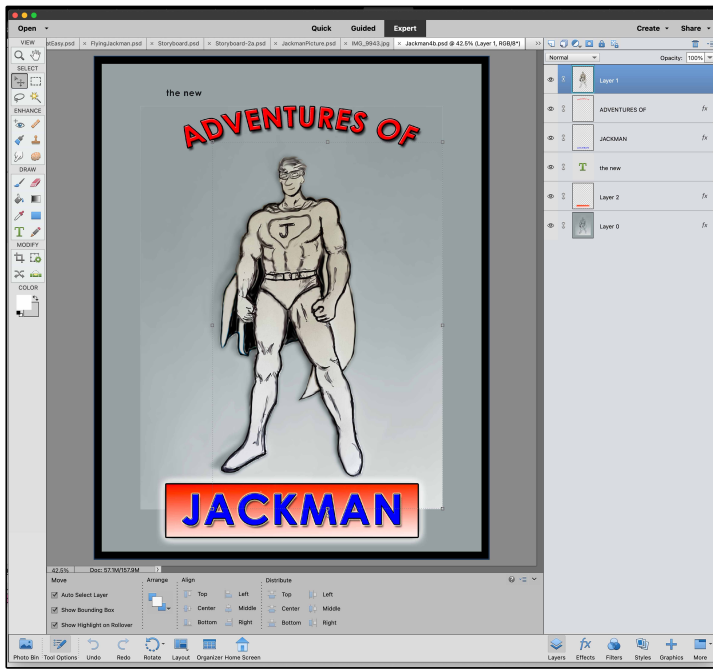

Is Jackman different? Should he be old-school, high-tech or a hybrid?

The tools have changed.... a LOT!

...we have apps that make cartoons out of real pictures!!

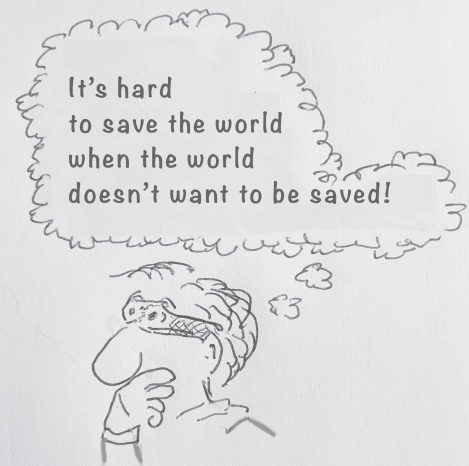

We can take high definition pictures of hand-drawn objects.

...and manipulate those pictures with computer software

But, there's more to it....

... absolute truths are being challenged!!

... and everyone has the knowledge of the world
in the palm of their hands!!

After all these years, Jackman remains
a troubled super anti-hero.

None of that really matters today.
because

today is a special day!!!

IT'S ANN'S BIRTHDAY!!!

hey, it's a cartoon,
you're forever
young too!!

HAPPY BIRTHDAY ANN
