

You Are Invited!

**Possibly the most important election
in the history of Crystal City
is upon us!**

The city officials have stifled your voice and input thus far.

Now you have the power to ***make a difference!***

Your vote counts, and our future is counting on *you*.

When:
April 8th

Where:
Your local polling location

**You don't have to publicly voice your
disappointment with the city's actions ...**

Let your VOTE be your voice!

IT'S NOT ABOUT A SMELTER

IT'S NOT EVEN ABOUT JOBS

Everybody wants jobs, but is it worth ruining our town for?

It's about *a few people* trying to tell us what our children's lives should be like for the next 100 years *without our input*.

It's about secrecy in Government
and being misled by our City Officials.

- > It's about protecting the values of our homes.
- > It's about our children and their children and the type of town we are going to leave to them.
- > It's about a pollution free place to live.

It's about a way of life. ***Health is everything!!!!***

The following city council candidates embody similar values and concerns of the Concerned Citizen's group, and strongly support open and honest government:

Ward 1 **Della Selmon**

Ward 2 **Dan Portell**

Ward 3 **Debbie McKenna**

Ward 4 **Terry Laburay**

"We The People" is not just a grouping of words, it means something. It is a reminder to the government that the citizens of this great nation ***have the power to make a difference.***

We must collectively create our future. Hand-in-hand, we can preserve this great city and give our children and grandchildren the better future they deserve.

VOTE For an
OPEN & HONEST GOVERNMENT

This could be the most important election in the history of the City!

A Better Future...Our Children Deserve It!
